# UNAUDITED THIRD QUARTER FINANCIAL STATEMENTS

## NINE MONTHS ENDED JUNE 30, 2018

## Chairman's Comments

Republic Financial Holdings Limited recorded profit attributable to shareholders of \$993.3 million for the nine-month period ended June 30, 2018, an increase of \$34.4 million or 3.6% over the corresponding period of the last financial year. Total assets stood at \$69.6 billion at June 30, 2018.

As was the case for the first half of the fiscal year, the improvement in profitability was driven mainly by better performance in our overseas subsidiaries. The profitability of the Trinidad and Tobago operations remains flat due to an increase in the tax rate.

In June 2018, the Government of Barbados (GoB) announced that it will suspend all payments on its external debt and roll over principal balance on its local debt at maturity, while continuing to make interest payments, until restructuring agreements are concluded. The discussions with the GoB and creditors are at a very early stage with respect to the terms of the restructuring.

The Group early adopted International Financial Reporting Standard No 9 in the third quarter of fiscal 2018, with effect from October 1, 2017. The overall impact to the Group on initial adoption of the standard, inclusive of a preliminary adjustment for the GoB exposure, was a reduction in total equity of \$988.2 million.

The Group expects to achieve a satisfactory performance to the end of the fiscal year. We are well positioned to withstand the economic challenges ahead with a strong balance sheet, robust capital and adequate liquidity.

***New standards, interpretations and amendments adopted by the Group***

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended September 30, 2017 except for the adoption of IFRS 9 Financial Instruments.

The Group early adopted IFRS 9 in the third quarter of 2018 with effect from 1 October, 2017 in advance of the date required by the International Accounting Standards Board (IASB).

As permitted by the standard, the prior year comparative financial statements which are reported under IAS 39 Financial Instruments: Recognition and Measurement were not restated and are therefore not comparable to the information presented for 2018. Differences arising from the adoption of IFRS 9 have been recognised directly in retained earnings as

The adoption of IFRS 9 resulted in changes in accounting policies relating to classification and measurement and impairment of financial instruments. The main change in classification was assets previously classified as Available for Sale, are now held at Amortized Cost. The reclassification of the related revaluation reserves have been included in the Statement of Change of Equity, under "Net Impact of Adopting IFRS 9".

Prior to the adoption of IFRS 9, a General Contingency Reserve was created as a voluntary appropriation of retained earnings, for the difference between the specific provision and non-performing advances. With the adoption of IFRS 9 and the enhanced provisioning levels, management has opted to reduce the level of General Contingency Reserves held, and has included the transfer of a portion of these reserves to retained earnings in the Statement of Change of Equity, under "Net Impact of Adopting IFRS 9".
