For the six months ended April 30, 2025 (expressed in thousands of United States Dollars)

CHIEF EXECUTIVE OFFICER'S REVIEW

The bank has demonstrated another solid performance for the quarter, driven by a client-centric strategy. Despite facing challenges arising from global trade tensions and policy uncertainties, which have impacted economic growth, the bank has managed to maintain its strong performance.

For the second quarter ended April 30, 2025, the bank reported net income of \$60.1 million, compared to \$67.4 million from the second quarter a year ago. After adjusting for a \$4.4 million gain related to a previously announced divestiture, adjusted net income stood at \$55.7 million compared to adjusted net income of \$70.4 million from the second quarter a year ago. Core growth continued across our business segments in both the loan and deposit portfolios; however, the related revenue uplift has been offset by the impact of lower US benchmark interest rates, funding dynamics and other related revenue uplift has been offset by the impact of lower OS benchmark interest rates, funding dynamics and other unrealized investment losses. Operating expenses related to our continuing operations increased by \$3.3 million or 3% from the prior year's quarter as the bank continued to invest in key strategic initiatives and recorded higher employee-related costs. Income tax expense for the quarter was up \$2.0 million or 25% largely due to the application of global minimum corporate tax. Certain jurisdictions in which we operate have implemented the Global Minimum Tax Act to adopt the Organization for Economic Co-operation and Development's Pillar Two mandate, which implements a 15% global minimum corporate tax on certain multinational enterprises.

For the six months ended April 30, 2025, we reported net income of \$115.9 million, compared to \$152.0 million from the second quarter a year ago. On an adjusted basis, net income stood at \$113.5 million, down from adjusted net income of \$159.1 million a year ago. We recorded higher year-to-date provision for credit losses compared to the same period a year ago due to a significant account recovery in The Bahamas during the prior year, provision build in the impaired loan portfolio and the impact of model assumption updates. Overall, our underlying credit quality remains strong.

At the end of the second quarter, the bank's Tier 1 and Total Capital ratios stood at 18.2% and 20.4%, respectively, exceeding regulatory requirements. The Board of Directors approved a quarterly dividend of \$0.0125 per share, payable on July 18, 2025, to shareholders of record as of June 26, 2025.

The bank continues to make a difference in the communities in which it operates, investing time and resources to promote positive change. Key initiatives this quarter included:

- The bank donated US\$20,000 to support the Nano-Enterprise Initiative under Project STAR (Social Transformation and Renewal), a five-year national initiative aimed at catalyzing social and economic renewal in under-resourced communities across Jamaica.
- The bank donated school equipment and monetary awards to special needs, early childhood and primary level institutions in Jamaica, St. Kitts and Barbados.
- The bank provided funding to the King's Trust for the advancement of employment programmes in Jamaica and Barbados and for the support of entrepreneurship in Trinidad, Barbados and Jamaica.

I wish to thank our clients, employees, shareholders and directors for their continued loyalty, confidence and support.

Mark St, Hill Chief Executive Officer

Jank Kaa C

CIBC Caribbean Bank Limited Condensed Consolidated Financial Statements

For the six months ended April 30, 2025 (expressed in thousands of United States Dollars)

CONDENSED CONSOLIDATED SEGMENT INFORMATION (continued)

Notes:

1. The Group's operations are organized into four segments: Personal and Business Banking ("PBB"), Corporate Banking ("CB") and Wealth Management ("WM"), which are supported by the functional units within the Administration ("Admin") segment (which includes Treasury, Finance, Technology, Innovation & Infrastructure, Risk and Other). PBB, CB and WM are charged or credited by Treasury with a market-based cost of funds on assets, liabilities and capital, respectively. The offset of these charges or credits are reported in the Treasury function within the Admin segment.

Management monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties. We review our transfer pricing methodologies on an ongoing basis to ensure they reflect changing market environments and industry practices. Transactions between the business segments are on normal commercial terms and conditions.

Segment assets and liabilities comprise operating assets and liabilities, being the majority of the statement of financial position, but exclude intangible assets. Securities and cash placements are normally held within the Treasury unit within the Admin segment.
